22 February 1956

MEMORANDUM FOR: Project Director of Materiel

SUBJECT : Location of PI Section

STAT In discussing the move of Project AQUATONE to 1717 H Street on Saturday, 25 February, with [redacted] I discovered that the PI Section now located in Wing C of Quarters Eys plans to remain in this location for thirty to sixty days, moving to 5th and K rather than to 1717 H Street. I believe that this is not general Project knowledge and wonder whether the problem of security responsibility, as well as space requirements for its stay at its present location, have been fully coordinated. Will they maintain their same telephone extension [redacted] I thought it might be a good idea if this received general dissemination.
